

US OUT OF IRAQ! RECRUITERS OUT OF OUR CITY!

The occupation of Iraq has killed more than 655,000 Iraqi civilians and 3,000+ US soldiers. 22,000+ US soldiers have been wounded in Iraq.

The Bush administration is escalating the war by sending an additional 21,000 troops to Iraq despite the clear failure of its current strategy.

New recruits will almost certainly go to Iraq, despite recruiters' lies about money for college and job training. 2/3rds of recruits never receive money for college and only 12% of veterans use skills learned from the military in civilian jobs (mediamouse.org/recruiting/).
